

## Advanced Clinical Embryology Medical School UOA

Dear Dr. Georgia Kokkali.

Please allow me to take this opportunity **to thank you for contributing as a high impact instructor to the “Advanced Course in Clinical Embryology” during the past academic year.** We are all thrilled with the excellent feedback that we received from the 2021-2022 team. Your lecture inspired, motivated and helped the students gain knowledge that will reflect on their expertise. Our aspiration to provide an exceptional course for clinical embryologists who aim to further their education was made possible thanks to your contribution to this endeavor. We wholeheartedly express our deepest appreciation for your generous support, while we acknowledge and applaud your commitment to educating the next generation of clinical embryologists and advancing the field.

It is with great joy that we would like to welcome you to the next academic year that brings us to the **“International Advanced Course in Clinical Embryology”**. This means that the course will be made available to students from all over the world. We are finally ready for the international Advanced Course to kick-off in October 2022! **Your contribution is an utmost honor.** The website [www.clinicalembryology.cce.uoa.gr](http://www.clinicalembryology.cce.uoa.gr) for the International Advanced Course will be released any day now, as it is currently under construction to accommodate the changes. All information will be made available there. I am further attaching the teaching schedule for your perusal.

Please carefully examine the title, the date and time that your lecture is scheduled for the upcoming academic year. Please do get in touch should the proposed date and time of your lecture needs to be changed. Furthermore, please kindly note that two weeks prior to your scheduled lecture you will receive a Google Calendar invitation inviting you to your talk along with the zoom platform link.

If I may kindly ask you to acknowledge receipt of this email.

Looking forward to hearing from you.

Kindest regards,

Mara Simopoulou B.Sc.,M.Sc.,Ph.D  
Associate Professor of Physiology-Embryology  
Sr. Clinical Embryologist/Geneticist  
School of Medicine  
National & Kapodistrian University of Athens
